## Experience

---

### Columbia Engineering Dean's Office

**New York, NY**

*Events Associate*

Sept. 2023 - Present

- Worked closely with internal teams and external partners to foster a collaborative and supportive environment, contributing to the overall success of team objectives.
- Demonstrated the ability to handle unexpected challenges during events, implementing quick and effective solutions to ensure minimal disruption.
- Utilized event management software and tools to registration processes, manage attendee data, and enhance overall event efficiency.
- Demonstrated strong graphic design skills by creating visually appealing and effective flyers to promote events.
- Oversaw the creation and management of guest lists, ensuring accurate RSVP tracking, and coordinating with attendees to provide necessary event details.
- Created dynamic and visually compelling PowerPoint presentations for internal and external use, enhancing the overall impact of presentations.

## Projects

---

### Portfolio Website

Dec. 2023 - Present

- *Conceptualized and developed a personal website to serve as an online portfolio, showcasing skills, projects, and professional experiences.*
- Implemented a responsive design, ensuring optimal user experience across various devices, including desktops, tablets, and mobile phones.
- Plans to implement engaging and informative content for sections such as Landing Page, About Me, Portfolio, and Resume.
- Demonstrated proficiency in web technologies by coding the website from scratch using HTML, CSS, and JavaScript, showcasing a strong foundation in front-end development.
- Plans to integrate a comprehensive resume section, providing a detailed overview of educational background, work experiences, skills, and certifications.
- Utilized collaborative tools such as Git for version control and GitHub for repository hosting, fostering a collaborative development environment.
- Integrated social media links to LinkedIn, GitHub, and other relevant platforms, providing visitors with multiple avenues to connect and explore professional profiles.

## Additional

- 
- **Programming Languages:** Java, Python, C, HTML, CSS, JavaScript
